Why Storytelling Wins?

Why Storytelling Wins?

DATA + STORY = IMPACT

Why Storytelling Wins?

DATA + STORY = IMPACT

Builds Connection

Makes insights relatable and memorable.

Why Storytelling Wins?

Builds Connection

Makes insights relatable and memorable.

Strengthens Identity

Connects the data to what we value.

Why Storytelling Wins?

Builds Connection

Makes insights relatable and memorable.

Strengthens Identity

Connects the data to what we value.

Enhances Engagement

Helps people notice and explore.

Why Storytelling Wins?

Builds Connection

Makes insights relatable and memorable.

Strengthens Identity

Connects the data to what we value.

Enhances Engagement

Helps people notice and explore.

Drives Impact

Shows what the outcomes mean.

Why Storytelling Wins?

Builds Connection
Makes insights relatable and memorable.

Strengthens Identity
Connects the data to what we value.

Enhances Engagement
Helps people notice and explore.

Drives Impact
Shows what the outcomes mean.

Inspires Action
Turns understanding into a next step.

Storytelling Frameworks

1. The Comparison Framework

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

CONCEPT

What?

Identify the topics or ideas to explore.

Why?

Understand the purpose behind comparing.

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

CONCEPT

What?
Identify the topics or ideas to explore.

Why?
Understand the purpose behind comparing.

COMPARE
Look at what is similar.

CONTRAST
Examine what is different.

EXPLAIN
Provide reasons, insights, and implications.

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

CONCEPT

What?

Identify the topics or ideas to explore.

Why?

Understand the purpose behind comparing.

COMPARE
Look at what is similar.

→

CONTRAST
Examine what is different.

→

EXPLAIN
Provide reasons, insights, and implications.

CORE LOGIC

01 COMPARE

Establish a baseline.

Identify the key features, qualities, or aspects that are the **same**.

EXAMPLE

Enrollment was about 2,000 in both 2024 and 2025.

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

CONCEPT

What?

Identify the topics or ideas to explore.

Why?

Understand the purpose behind comparing.

COMPARE
Look at what is similar.

→

CONTRAST
Examine what is different.

→

EXPLAIN
Provide reasons, insights, and implications.

CORE LOGIC

01 COMPARE

Establish a baseline.

Identify the key features, qualities, or aspects that are the **same**.

EXAMPLE

Enrollment was about 2,000 in both 2024 and 2025.

02 CONTRAST

Reveal differences.

Identify the key features, qualities, or aspects that are **different**.

EXAMPLE

Enrollment fell to 1,850 in 2026.

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

CONCEPT

What?
Identify the topics or ideas to explore.

Why?
Understand the purpose behind comparing.

COMPARE
Look at what is similar.

→

CONTRAST
Examine what is different.

→

EXPLAIN
Provide reasons, insights, and implications.

CORE LOGIC

01 COMPARE
Establish a baseline.

Identify the key features, qualities, or aspects that are the **same**.

EXAMPLE
Enrollment was about 2,000 in both 2024 and 2025.

02 CONTRAST
Reveal differences.

Identify the key features, qualities, or aspects that are **different**.

EXAMPLE
Enrollment fell to 1,850 in 2026.

03 EXPLAIN
Provide reasons/implications.

Explain why the differences or similarities **matter**. Draw conclusions and consider the impact.

EXAMPLE
Fewer first-year students drove the decline.

1. THE COMPARISON FRAMEWORK

A powerful thinking tool that helps us understand ideas deeply by looking at **similarities**, **differences**, and **reasons**.

CONCEPT

What?
Identify the topics or ideas to explore.

Why?
Understand the purpose behind comparing.

COMPARE
Look at what is similar.

→

CONTRAST
Examine what is different.

→

EXPLAIN
Provide reasons, insights, and implications.

CORE LOGIC

01 COMPARE
Establish a baseline.

Identify the key features, qualities, or aspects that are the **same**.

EXAMPLE
Enrollment was about 2,000 in both 2024 and 2025.

02 CONTRAST
Reveal differences.

Identify the key features, qualities, or aspects that are **different**.

EXAMPLE
Enrollment fell to 1,850 in 2026.

03 EXPLAIN
Provide reasons/implications.

Explain why the differences or similarities **matter**. Draw conclusions and consider the impact.

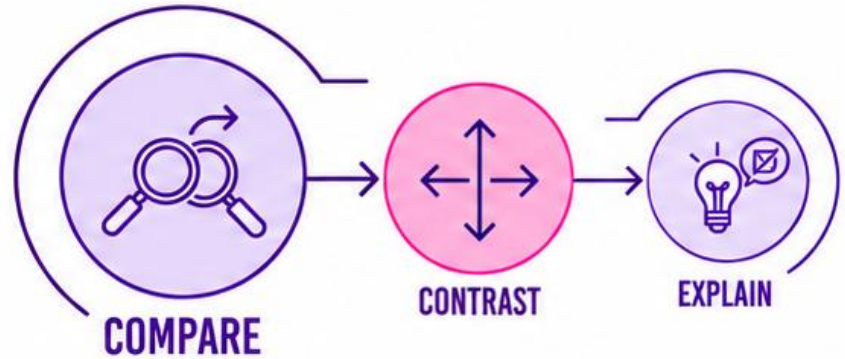

EXAMPLE
Fewer first-year students drove the decline.

OUTCOME

Deeper understanding, better decisions, stronger insights.

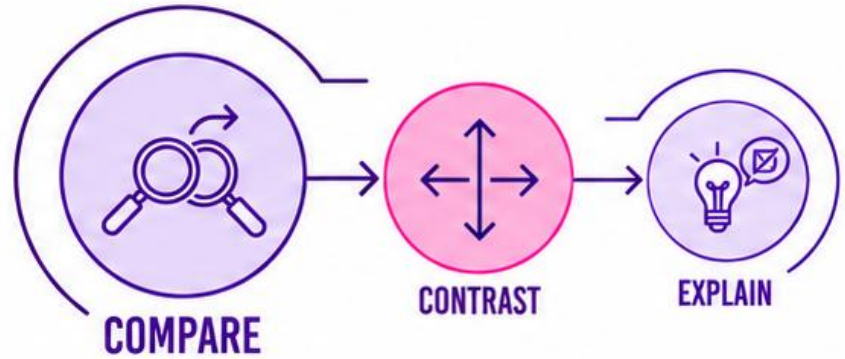

Compare:

“What are we measuring this against?”

Compare:

"What are we measuring this against?"

Common Higher Ed Comparisons

01 This year vs last year

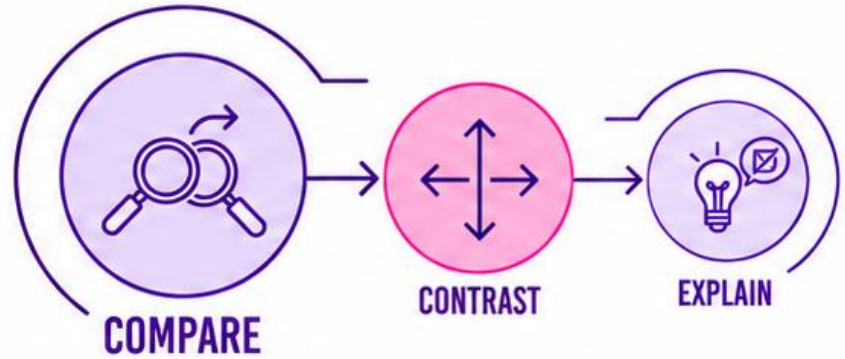

02 This term vs previous term

03 Program A vs Program B

04 Institution vs benchmark

Compare:

"What are we measuring this against?"

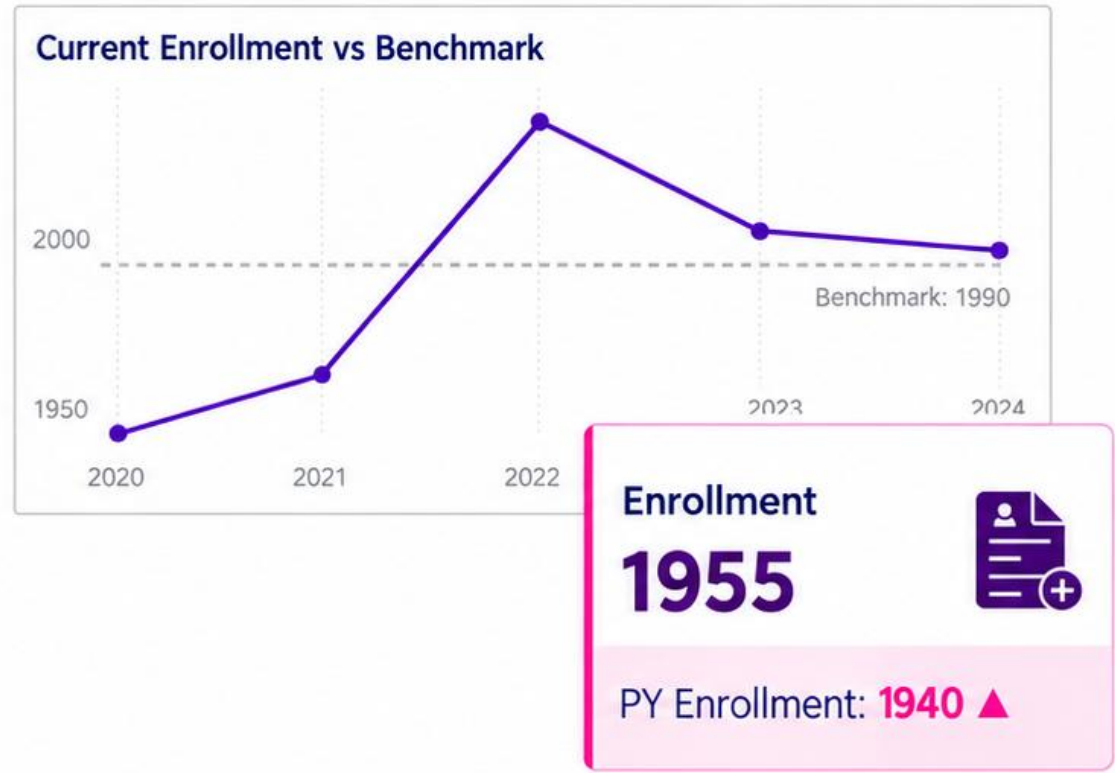

Common Higher Ed Comparisons

01 This year vs last year

02 This term vs previous term

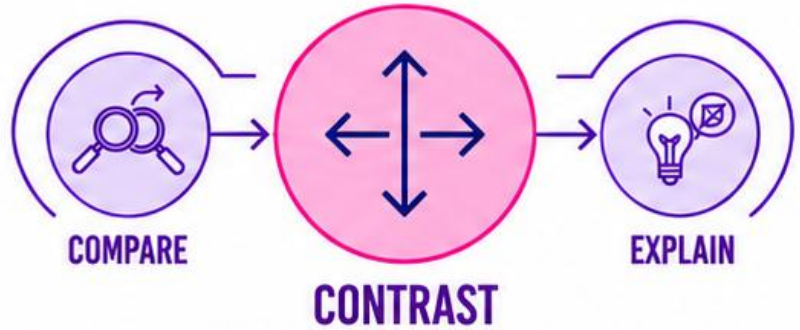

03 Program A vs Program B

04 Institution vs benchmark

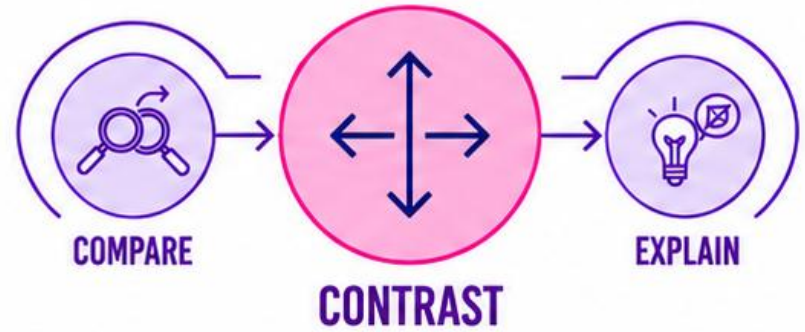

Contrast:

"Where is it different?"

Contrast:

"Where is it different?"

Common Higher Ed Comparisons

01 By college or department

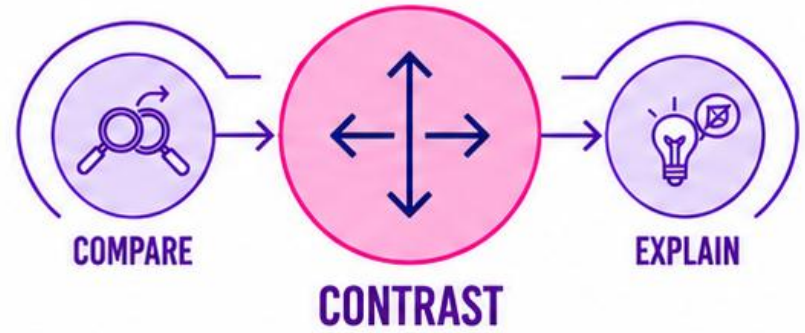

02 By program level (UG vs Grad)

03 By demographic group

04 Domestic vs International

Contrast:

"Where is it different?"

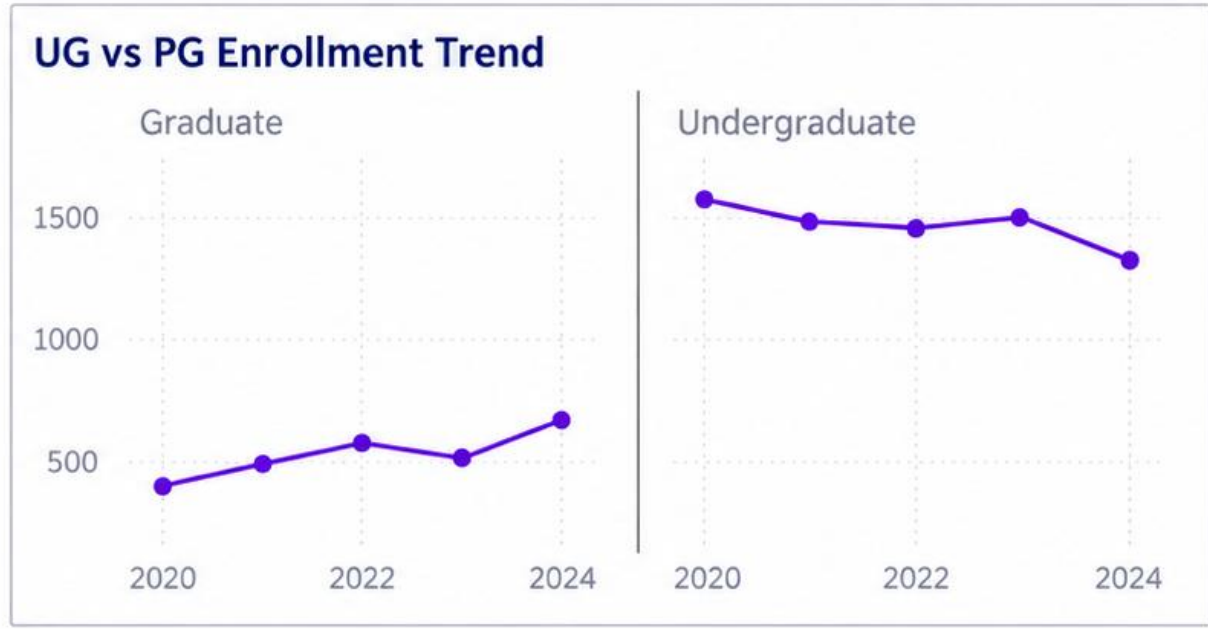

Common Higher Ed Comparisons

01 By college or department

02 By program level (UG vs Grad)

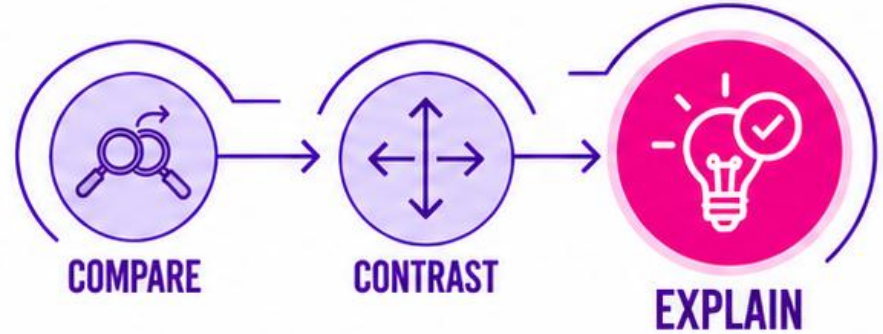

03 By demographic group

04 Domestic vs International

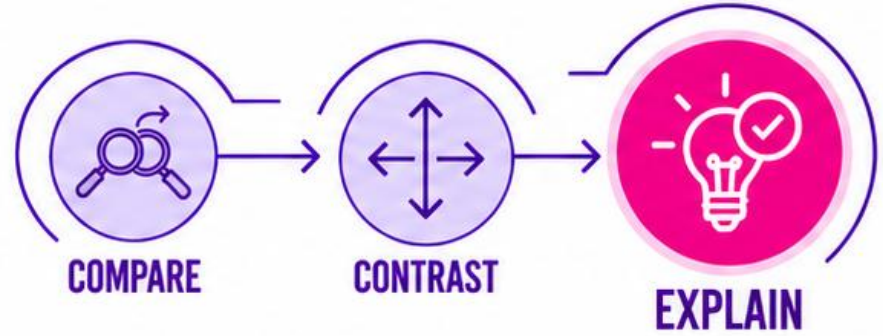

Explain:

"Why is this happening?"

Explain:

"Why is this happening?"

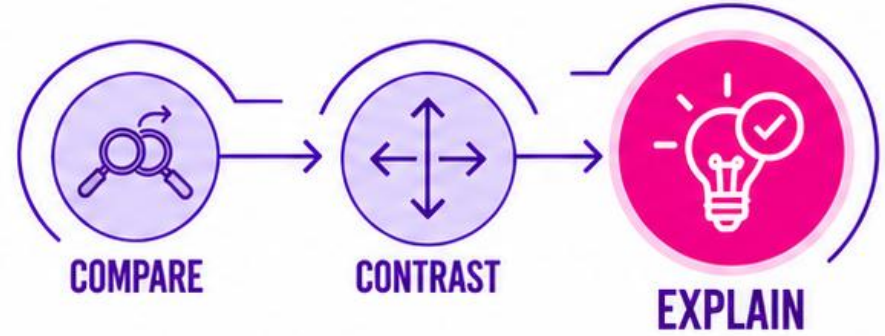

Explanation Comes From:

- Additional context
- Known events
- Correlated drivers
- Institutional knowledge

Explain:

"Why is this happening?"

Explanation Comes From:

- Additional context
- Known events
- Correlated drivers
- Institutional knowledge

Data tells you what happened.

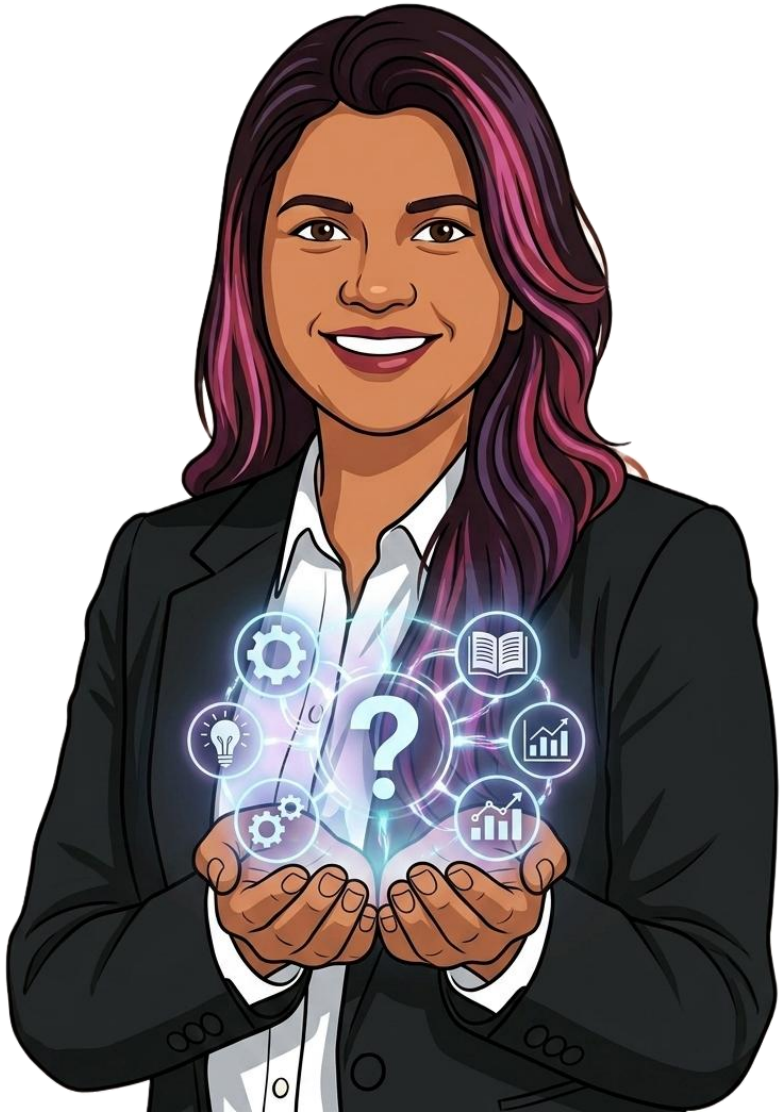

Explanation tells you why it happened.

Layering context and understanding drivers helps turn insights into better decisions.

Example

💡 **Power BI Storytelling Tip:**

Your dashboard should feel like it’s **answering questions in the same order** the viewer is thinking them.

3. The Martini Glass Framework

3. The Martini Glass Framework

3. The Martini Glass Framework

3. The Martini Glass Framework

CONCEPT

1. START BROAD
Introduce the big picture and set the stage.

2. FUNNEL TO INSIGHT
Narrow the focus to extract key insights.

3. OPEN UP FOR EXPLORATION
Provide space and flexibility to explore, ask questions, and discover more.

3. The Martini Glass Framework

CONCEPT

1. START BROAD
Introduce the big picture and set the stage.

2. FUNNEL TO INSIGHT
Narrow the focus to extract key insights.

3. OPEN UP FOR EXPLORATION
Provide space and flexibility to explore, ask questions, and discover more.

CORE LOGIC

THE WIDE TOP – SHARED CONTEXT
Engage everyone with the big picture and common ground.

3. The Martini Glass Framework

CONCEPT

1. START BROAD
Introduce the big picture and set the stage.

2. FUNNEL TO INSIGHT
Narrow the focus to extract key insights.

3. OPEN UP FOR EXPLORATION
Provide space and flexibility to explore, ask questions, and discover more.

CORE LOGIC

THE WIDE TOP – SHARED CONTEXT
Engage everyone with the big picture and common ground.

THE STEM – GUIDED INSIGHT
Focus the conversation and guide toward the most important insights.

3. The Martini Glass Framework

CONCEPT

1. START BROAD
Introduce the big picture and set the stage.

2. FUNNEL TO INSIGHT
Narrow the focus to extract key insights.

3. OPEN UP FOR EXPLORATION
Provide space and flexibility to explore, ask questions, and discover more.

CORE LOGIC

THE WIDE TOP – SHARED CONTEXT
Engage everyone with the big picture and common ground.

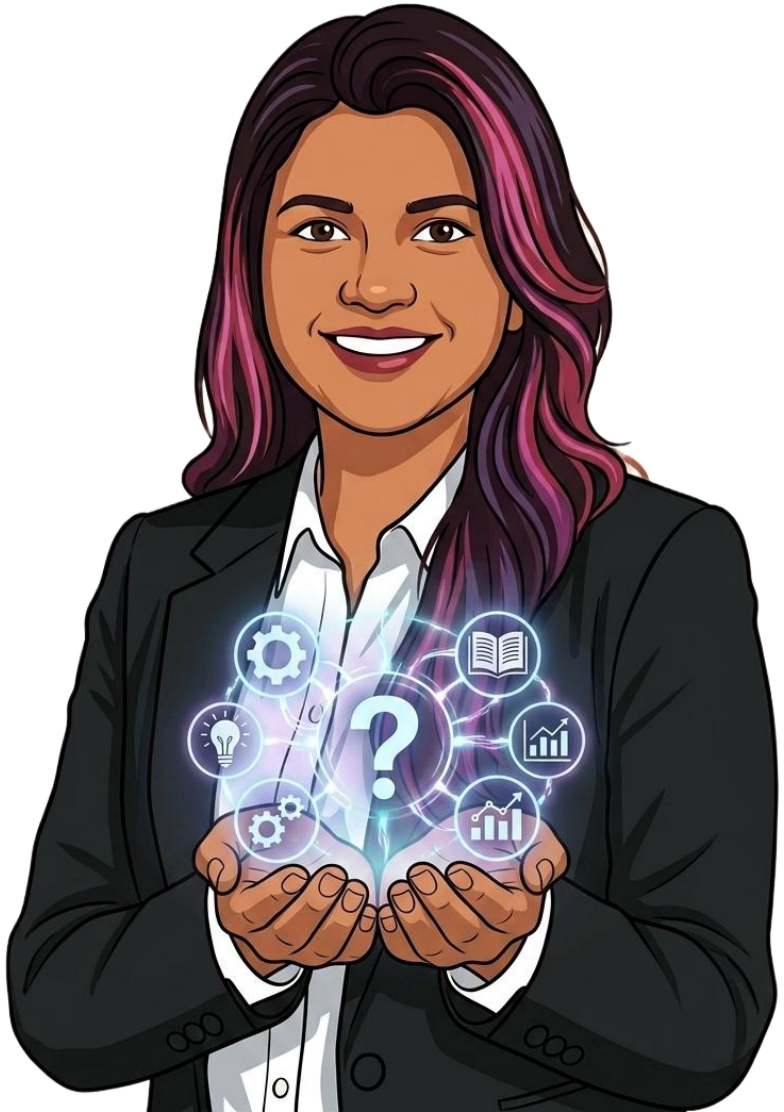

THE STEM – GUIDED INSIGHT
Focus the conversation and guide toward the most important insights.

THE OPEN BASE – EXPLORATION
Open the floor for curiosity, questions, and deeper exploration.

Example

💡 **Power BI Storytelling Tip:**

The Martini Glass ensures that **insight is shared before exploration begins.**

Which Framework to Use?

A guide to choose the right framework for the right purpose.

Which Framework to Use?

A guide to choose the right framework for the right purpose.

1. THE COMPARISON FRAMEWORK

BEST FOR	Evaluating options, ideas, or items side by side
CORE IDEA	**What? → Why?** Compare → Contrast → Explain
HOW IT WORKS	1. Compare (establish baseline) 2. Contrast (reveal differences) 3. Explain (provide reasons/implications)
VISUAL	
STRENGTHS	✓ Clear side-by-side evaluation ✓ Highlights similarities & differences ✓ Supports decision-making
EXAMPLE USE CASES	• Product comparisons • Vendor evaluations • Feature vs. feature analysis

Which Framework to Use?

A guide to choose the right framework for the right purpose.

	2. PROGRESSIVE DISCLOSURE FRAMEWORK
BEST FOR	Delivering information in layers, avoiding overload
CORE IDEA	Show only what is needed, when it is needed
HOW IT WORKS	1. Start simple (high-level insights) 2. Allow deeper drill only if needed
VISUAL	
STRENGTHS	✓ Reduces cognitive load ✓ Delivers just-in-time information ✓ Empowers user control
EXAMPLE USE CASES	• Dashboard drill-downs • Reports & analytics • Onboarding & help flows

Which Framework to Use?

A guide to choose the right framework for the right purpose.

	3. THE MARTINI GLASS FRAMEWORK
BEST FOR	Exploring a topic from big picture to deep dive
CORE IDEA	Start broad → Funnel to insight → Open up for exploration
HOW IT WORKS	1. Wide Top (shared context) 2. Stem (guided insight) 3. Open Base (exploration)
VISUAL	
STRENGTHS	✓ Creates shared understanding ✓ Focuses conversation ✓ Encourages curiosity & discovery
EXAMPLE USE CASES	• Strategy discussions • Research & learning • Workshops & brainstorming

How to Choose a Framework

Answer a few key questions to find the best framework for your needs.

How to Choose a Framework

Answer a few key questions to find the best framework for your needs.

01

Do you need to evaluate or decide between options?

→ Use **The Comparison Framework**

How to Choose a Framework

Answer a few key questions to find the best framework for your needs.

01

Do you need to evaluate or decide between options?

→ Use **The Comparison Framework**

02

Do your users need information in stages or layers?

→ Use **Progressive Disclosure Framework**

How to Choose a Framework

Answer a few key questions to find the best framework for your needs.

01

Do you need to evaluate or decide between options?

→ Use **The Comparison Framework**

02

Do your users need information in stages or layers?

→ Use **Progressive Disclosure Framework**

03

Do you need to build shared understanding and then dive deeper together?

→ Use **The Martini Glass Framework**

How to Choose a Framework

Answer a few key questions to find the best framework for your needs.

01

Do you need to evaluate or decide between options?

→ Use **The Comparison Framework**

02

Do your users need information in stages or layers?

→ Use **Progressive Disclosure Framework**

03

Do you need to build shared understanding and then dive deeper together?

→ Use **The Martini Glass Framework**

PRO TIP

You can also combine these frameworks!

Start with **Martini Glass** to set context → Use **Comparison** to evaluate → Use **Progressive Disclosure** for deeper details.

Key Takeaways:

01 | **Communication over decoration**

Great dashboards help people understand.

Key Takeaways:

01 | **Communication over decoration**
Great dashboards help people understand.

02 | **Stories stay with us**
They're remembered longer than isolated metrics.

Key Takeaways:

01 | **Communication over decoration**
Great dashboards help people understand.

02 | **Stories stay with us**
They're remembered longer than isolated metrics.

03 | **Make meaning easier to find**
Keep the nuance. Reveal what matters.

Key Takeaways:

01 | **Communication over decoration**
Great dashboards help people understand.

02 | **Stories stay with us**
They're remembered longer than isolated metrics.

03 | **Make meaning easier to find**
Keep the nuance. Reveal what matters.

04 | **Tell the story intentionally**
Every dashboard tells one—whether we plan it or not.

Key Takeaways:

01 | **Communication over decoration**
Great dashboards help people understand.

02 | **Stories stay with us**
They're remembered longer than isolated metrics.

03 | **Make meaning easier to find**
Keep the nuance. Reveal what matters.

04 | **Tell the story intentionally**
Every dashboard tells one—whether we plan it or not.

Better storytelling → Better understanding → Better decisions
